

AAMD Policy on Website posting of other meetings or CE activities

8/5/09

It is AAMD's policy to only post meetings or CE activities on our website which meet two of the three the following criteria.

1. An allowed meeting must be educational in nature.
2. An allowed meeting must have applied for Medical Dosimetry Certification Board CE credits. The MDCB sends a confirmation email or letter when the request for credit review has been received and pending approval or has not been approved. The posting will need to indicate that MDCB credit is approved or pending approval. The letter must be provided to the AAMD in order to post to the website.
3. An allowed meeting will be sponsored by an organization which has a formal affiliation with AAMD regardless of MDCB CE credit approval. These meetings should be educated about the potentially better CMD turnout with MDCB CE credit approval. Currently the list consists of: AAPM, ASTRO, ASRT, ACMP, MDCB, AEIRS, CRCPD and HPN.
